

Saillagouse, village twinned with Berven-Plouzévéde

At the beginning of 1998, a letter addressed to the commune of Saillagouse, coming from the twinning committee of Plouzévéde, wishing to exchange and to be twinned with a county of a size equivalent to the Breton village, is at the origin of the twinning between the two communes.

The city council of Saillagouse then gives an agreement in principle, and in April 1998, a delegation moves to Plouzévéde, then it is Cerdans' turn to receive about fifteen Bretons. Over the months, movements between the two villages shows the desire to formalize the twinning of the two municipalities.

By mutual agreement, this ceremony took place successively in each of the two communes:

- on February 13 & 14, 1999 in Saillagouse on the occasion of Carnival and Valentine's Day. A commemorative stone has been deposited in the garden of the town hall.
- on June 26, 1999 in Berven-Plouzévéde.

Granite kilometer marker, sculpted by the Salaun establishments, in Cléder (29), awarded for the official twinning ceremony.

Every two years, the school of Plouzévéde is welcomed by the municipal team of Saillagouse during his ski stay in the region.
